For Kentucky-Rain; warmer in eastern portion; southeasterly winds

Even the yellow New York Journal has discarded Mr. Bryan and his theories, but it is anthoritatively sinted that the silver champion retains the entire and unqualified approval of the Honorable but sockless Jeremiah Simpson.-Public Ledger.

You're off again. The Journal some days ago denied this Bryan story.

PHOTOGRAPH OF A DEGENER-ATE.

The following is a picture, hy a master-hand, of a type of citizen that is pushing his way into every vocation and walk of life. The most familiar variety is the "genial, high-toned gentleman" of the rural press:

The typical rascal is never the hero that romance, whether in the dime novel or the newspaper, pictures him. His intelligence is, as a rule, of a very low order, confined to keenness and cunning, which act in the narrow circle of first preying upon his victims and then trying to outwit justice. Compare it with the intelligence which works for good. His courage is generally greatly overestimated. He rarely fights except when he has the overwhelming advantage or when he is driven into a corner. His magnanimity and amiability-qualities especially credited to him by writers and readers of the low romantic school—are myths. They are no part of his business, save as they serve to cloak his villiany. Pure selfishness, or at best, physical temperament, is at the bottom of his humor, apparent generosity and even his family affection, for when the crucial test comes he will sacrifice anybody and everybody to self. The proverbial "honor among thieves" holds good only to a certain point. The moment it becomes clear that no advantage, direct or indirect, remains to the individuals of the gang the vaunted honor is thrown to the winds, the gang disbands, each clutches what he can from the wreck of their common fortunes and henceforth preys upou his former pals with no more compunction than he feels in preving upon the rest of the world .-Edward C. Jackson in North American

A GENEROUS TRIBUTE.

A Gem in Artistic Portraiture is Dr. Pickett's Sketch of the Late Hon. W. H. Wadsworth.

Seldom has any attempt to biographize exponents of any particular calling in State or country met with as favorable a reception as the latest publication of The Lewis Publishing Company, "Lawyers and Lawmakers of Kentucky." It is, however, seen at its best when analyzed with reference to the distinguished characters of which it treats.

Among the surpassingly rare sketches of Kentucky's eminent lawyers, there stands one conspicuously prominent,-a gem in artistic portraiture and rhetorical finish, and withal most touchingly beautiful in the truthful accuracy with which it measures a proper mead to a worthy testimonial of our fellow townsman, Dr. passed. BILL PENDING

Which Provides For a Complete Change in Road Laws.

FRANKFORT, Ky., Jan. 22.—Representa-Shepard, of Kenton, has introduced a bill that is now pending before the House Committee on Internal Improvements, which provides for a complete change in the road laws of the State. The main features of the bill are as follows:

A State Road Commissioner, to whom all proposed new road plans must be submitted and his approval secured before said road can be built.

Requires the State to pay one third of the cost of all roads built, and the county the other two thirds, less one tenth the total cost, which must be paid by the owners of land by or through whose land the new road is to be built, and who petition for the road to be constructed.

The cost of building these roads shall not exceed \$100,000 to the State in any one year.

The blll is lengthy, and goes into the iletails of carrying the new system of building the roads, including the duty of County Fiscal Court, the State Commissioners and the County Road Superintendent, and the manner of issuing bonds of the county to pay for the roads.

Mr. Shepard will make an earnest effort much encouragement in that direction from his fellow members.

The latter resort has become a great spring training place for ball players, who flock there by the hundreds. The hot baths reduce fat and the hilly country round about affords good hardening exercise. McGann will remain there for a month and then go over to Macon, Ga., where the Orioles have their annual spring gathering. McGann has little real need of going to the springs, as he is temperate in habits and always keeps in good condition, in and out of season. He got lonesome at home, nowever, and as there will be enough of players at the health resort to make up a small league, he can break in early in playing. He has heard nothing from Manager Hanlon since his transfer from Washington to Baltimore, but is naturally gratified at the change, which lands him into a championship team.

A NOBLE WOMAN.

A Tribute to the Late Miss Harriet Keith Owens.

The tragic death of Miss Harriet Keith Owens last week at her home near Washington cast a gloom over the community that has not been exceeded, if equaled, within the memory of the writer. Many gifted ones had gone hence before her, at an early age, and such as could be illy MR. GEORGE WOOD, of the county, as- spared; those for whom blinding tears Wm. D. Cochran. His assets cousist them; but who of all these surpassed this talented young woman either in intellect or acquirements? She was truly one of nature's noble-women, ever foreher left hand to know what her right

> hand did. Who were in distress and she did not

elieve them? Who were in want that she did not

ninister to their needs? Her hand ever followed the promptings

of a noble heart. Withal she was a sincere Christian, ner life proving it in many ways.

The last copy she wrote on the blackboard, the evening before her end, "God is love and we must trust him," showed what was in her heart. That copy remains there to-day to testify to her character as a Christian woman.

It was in the home life, though, that this excellent woman showed at her best; there she was the queen of grace and kindness.

Of a naturally studious bent, she improved her mind by constant and laborious study and reading. She was a worshiperat Wisdom's shrine, and impressed all with whom she came in contact with her wonderful ability. We question whether there was a better informed woman of her age in the State than she.

She was a woman of indomitable energy and perseverance, never undertaking anything that she did not accomplish; would have been confirmed invalids, so sidious disease that preyed upon her vitality.

What a pathetic sight was that company of school children gathered that fateful morning awaiting the teacher who was never more to come!

Her overwrought and delicate organism was finally compelled to succumb its enemy, and doubtless when reason was dethroned for the time, was she prompted to the deed that brought sorrow and grief unutterable to her brothers and sister and aged father and friends.

Where the pine trees mourn a requiem she sleeps peacefully, there to remain until aroused by the clarion notes of the archangel's trump on the resurrection

One Successful Exposition.

The final settling up of accounts for tho Tennessoe Contonnial exposition at Nashvillo shows a gratifying result. The enterprise paid for itself and considerably more.

It was the most characteristically local exposition on a large scale that the older parts of the country have witnessed. Tennesseo is as rich in local history and coloring and in the marked traits of its people as in mineral and agricultural resources, and that is saying much. This made the show at Nashville as unique as a great exposition ean

Nashville had designs that went further than the preparation of a temporary park for the buildings of the fair. Beautiful as the capital of Tennessee is, it has no central public park. It has long been the desire of the citizens to secure such a park. Their eivie prido was appealed to when the city got the fair. Each subscribed according to his means. The police of Nashville taxed themselves \$10 apiece for the fair. So did many other persons of comparativoly small means. The ladies who had charge of the woman's building would not accopt free passes, but paid their way every time they visited the fair.

When the show was over, there was a comfortable surplus left. Patriotie Nashviliians, however, refused to take their money back, but donated it to the city park. Where the art building stands will be the nucleus of Nashville's city park. The art building is not a temporary structuro. It will hold permanently the works contributed to it, and it wili be the pride of Tennesseeans. The ground around it, aiready laid out in decorativo landscapo and planted with trees, shrubs and flowers, will form a rare breathing spot for home people and strangers.

Hawaiian Annexation.

The editor of The Review of Reviews presents several strong reasons why Hawaii should be annexed to the United States without delay. The people of tho islands themselves want very much to come to us for one thing. For another we ought to have a naval and coaling station in the Pacific. Perhaps the strongest reason of all is, however, that unless we amex Hawaii the new republie of the Pacific may be offered bodily to England. England would not leave it to go begging while earping, fussy Miss Nancy critics split hairs over tho question whether sho had any right under the constitution to accept Hawaii and what she would do with it if she Texas did, and we did not hesitate about receiving Texas. European nations would not object to our annexing Hawaii because we are so peaccably inclined that they are all well disposed to us, says Dr. Shaw.

Another point, extremely important, to be considered is summed by Tho Review as follows:

American control of Hawail ls ln somo sense a duty that this country owes to Japan and Chinn. Those ancient oriental states are seriously menaced by the aggressive attitude of the land grabbing European powers, and if England or Germany should obtain Hawali the sort of peaceful development of the oriental nations which is most to be desired by us would be further endangered. Again, from the political and strategic point of view, the position of Hawaii ought to be regarded by us as elosely related to other policles overwhelmingly favored by the people of the United States. We refer to the American control of the Nicaragua canal and to the acquisition of one or more satisfactory naval stations In the West Indies.

Even somo American newspapers have been expressing sympathy for poor old England, browbeaten, insulted and ig nored in European affairs, according to their belief. Meantime Mr. McLeavy Brown, the Englishman who had been dismissed as superintendent of tho Korean finances and a Russian agent, M. Alexioff, appointed in his place, has been reinstated. China is earnestly seeking to enter into closer relations with British eapitalists in order to get a loan from them. Great Britain is also prepared to enforce her right to winter ships at Port Arthur if Russia does. This does not look as though "poor old England" was quite a back number. When the scoffs of Germans and French and Irish and also of somo American nowspaper writers rain upon her back, sho does not say much, always excepting some of her jingo editors. In the words of a famous poem written last year by an Englishman, "sho turns her eyes toward the sca." That is aii, but it is enough.
